Dear Feed My Sheep Partners,

This past year, 2011 brought us many victories and success stories where God overwhelmingly blessed our ministry. We saw many lost souls saved with prayer, teaching, and preaching, and many lives saved with medicine and medical treatment.

4 years ago we planted this church with 20 members, now there are approx. 350

Thanks to medication donated by FMS supporters, 217 patients were saved during the cholera epidemic.

We were able to acquire 6 months of food for the orphanage with 48 orphans we sponsor from Kids Against Hunger. And several months of lunches in Mario's School, plus donated food to poverty stricken homes and the churches we sponsor.

Food given to poverty stricken homes.

6 months food given to the orphanage with 48 kids

Food given for lunch program at Mario's school

We raised funds to pay for an upstairs addition on Mario's school that practically doubled in size and paid for the education of 76 sponsored students and used the excess sponsorship money to keep the school afloat by helping with the teacher payroll due to the lack of tuition being paid by so many unsponsored student's inability to pay.

Mario's new upstairs.

The tree project has almost become self sufficient though we still maintain some hands on and communicate it's progress to Trevor in Pa. who had the vision to come here and put the project together. I estimate this past year, more than 10,000 trees have been distributed and planted all over our area from this project.

Tree Give Away

Early tree nursery

Planting the sides of the mountain in Piat.

This past year we had a mini school bus donated, and it's working great for transporting teams. Also, before the turn of the year we were donated funds for a new generator and a solar system that has cut our expenses immensely. Praise the Lord for that!!!

Our solar system

Our new generator.

Starting in Oct. 2011 Monthly funds took a major drop and all our equipment was breaking down. When Jan. 2012 came the annual rent for our mission house in Haiti came due (\$3,700). And we were only able to come up with \$700. For the first time in more than 6 years, I had to borrow \$3,000 to keep our home 1 more year. So far, I've been unable to repay any of that loan. Beverly and I live as modestly as we can, here and in the states, as anyone who comes here can see. We focus more on ministering to others than our own needs and have faith that God will meet those needs daily. However, right now we're struggling to maintain the projects and people we minister to on a regular basis, and we're running behind. As of Jan. 2013, the lease on our current mission house is finished. Since this house no longer meets our needs, and the landlord will raise the rent if I want to renew, we've found a new home for \$6,000 per year.

As you can see from the picture on the left, it has a wonderfully large yard where we will be able to park our vehicles. It is not finished as of yet, but any money we raise and put towards this, it will be applied to the rent when we move in.

This means by Jan., we need \$9,000 to pay back the loan and rent the new house.

In the past, we always focused more on projects to help the Haitian people than our own personal needs. However, if I don't draw some attention toward our current and soon to come personal needs, we will no longer have a home or Haitian ministry to return to after 2012.

In the past, many have expressed a desire to do a construction project. The house we want to move into is not complete. There is a Haitian construction crew working on it, but they could use some American help with funds and labor. If anyone is interested please contact us.

There are a few more construction projects needed too. Ramon and Mdm. Ramon are an elderly Christian couple. She is totally blind and he is blind in one eye. They lost half their home in the earthquake.

Left and right are the pictures of the back side of their home. It's barley standing up. Middle are Ramon and his lovely wife.

This past summer our prayer church on the mountain that is so vital to our village lost it's roof during the windy rains.

Also an old couple, Flamore and his wife have an old adobe house with the roof caving in..

Flamore in front of his old falling down adobe house.

Prayer Mountain Church

Dr. Bolte' is wanting to build a blood work Laboratory, and Praise the Lord we have a team coming in May to do that for him.

A lot of needs requiring a lot of support. We hope you will pray about it. Any and all assistance is greatly appreciated.

May God Continue to Bless You All,

Richard and Beverly Felmey

Feed My Sheep Ministry

P.S. To all Sponsors/donors: In the next couple of days, I will be having a sheet of payment coupons on the web site that can be printed out to make payments easier for you. This summer I will have complete payment booklets for existing and new sponsors.
