Dear Partners of Feed My Sheep Ministry,

At the turn of the year, God blessed us with a large Mitsubishi Fuso diesel truck. We received many donated items that we loaded on this truck to help with our ministry in Haiti. Attached is a copy of the inventory inside the truck. February 21, 2011 we paid \$2,600 to the Monarch Queen to ship the truck and its contents to St. Marc, Haiti and it arrived yesterday. Now we have to get it through customs, and we estimate the costs to be approx. \$5,000 U.S.

When we made all these arrangements, funding was coming more than adequately. However, about the time Haiti was experiencing some temporary political unrest, our funding hit a terrible slump. It's been a while since we've experienced a slump like this, but I still remember that God has always kept us afloat in the past (even though often times he pulled us out of the slump at the very last moment) and we're confident he'll bring us through this as well.

Regardless, the truck and everything on it was donated by Christians to do a work that will be fruitful for His kingdom, so we consider the truck and contents to be His, and us with all faith, are believing whatever the outcome, it's entirely in Gods' hands. Prayers are always appreciated but if you feel moved to help financially, please send any size contribution to Feed My Sheep P.O. Box 341 Bell, Fla. 32619 (earmarked, Mitz. Truck)

Sincerely,

Richard and Beverly Felmey

CONTENTS OF MITSUBISHI FUSO
SHIPPED FROM MANARCH QUEEN
TAKEN THERE FEB. 21, 2011
