Subject: Haiti

Hi Richard and Beverly,

I feel as though we know you even though we've never met. Now that things for us have quieted down a bit, I want to thank you for all you did for our son, Ben, and the rest of the guys while they were with you during the life-changing events in Haiti. One of the comforting thoughts for me as we learned more about the disaster was the fact that the boys weren't there by themselves. They had the 2 of you who took the place of "temporary parents" for our guys. I can't tell you how much we appreciate all you did to keep Ben and the others safe during that time. You also must have been quite entertaining because Ben has some good stories about his time with you! Things in Montrouis will definitely be different when you return. New challenges and opportunities will be waiting. Ben is already thinking about returning....just not sure when.

Again, we truly are thankful for you both and for the role you played during those 11 days. Words of gratitude don't seem to be adequate enough, but I hope you will understand our appreciation. May God bless you and your ministry.

Fondly,
Becky (and Royce) Wingert
